Family Nurse Practitioner Core:

MSN 565	Advanced Practice Nursing in Primary Care of Infant, Child and Adolescent (168 clinical hours required)
MSN 566	Advanced Practice Nursing in Primary Care of Reproductive Health (168 clinical hours required)
MSN 567	Advanced Practice Nursing in Primary Care of Adult (168 clinical hours required)
MSN 568	Advanced Practice Nursing in Primary Care of Aging Adult (168 clinical hours required)

Clinical experiences usually occur in the student's home community at an approved clinical site.

Note:

Courses are offered online with one required on-campus presentation. Clinical experiences usually occur in the student's home community at an approved clinical site. Technology requirements include purchase of Typhon (for required documents and case logs) and Remote Proctor device for midterm and final exams.

Pharmacology requirements differ from state to state and may require additional pharmacology course work for prescriptive authority. If your home state is not West Virginia, MSN 532 may need to be repeated to meet your state's certification requirements.
