

Graduate Nursing PROGRAM AND COURSES

The Master of Science in Nursing program is fully accredited by the Commission on Collegiate Nursing Education and offers majors in nursing administration, family nurse practitioner, and nursing education specialist. The curriculum is designed to accommodate the registered nurse graduate student who desires to remain employed. The faculty recognizes that each person is a unique individual who is an integral member of many systems. Each of these systems interfaces with other complex and changing systems that create the unique fabric of each individual environment.

Emphasis on the concepts of system, critical thinking, advanced practice and change is integrated throughout the MSN curriculum. As the MSN program prepares the professional nurse for advanced practice, the nurse will think critically and make the best possible decision for the betterment of the advanced practitioner, the client, the organization, and the overall environmental system. Central to the concepts of system, critical thinking, and the advanced practice is the continuous and dynamic process of change. The MSN graduate will possess the necessary skills to influence the change process and enhance the quality of healthcare for the betterment of mankind and the overall health care system.

The purpose of the masters program in nursing is to prepare registered nurses for professional leadership and advance practice roles and to contribute to the development of nursing and healthcare knowledge. Graduates from the MSN program are prepared to:

1. Assume leadership positions in health care, educational, and other settings
2. Contribute to the development of nursing knowledge
3. Ensure the delivery of quality and cost effective patient care
4. Assume responsibility for the therapeutic management of patient care services
5. Function as a member of the interdisciplinary team

Admission Requirements

1. Graduation from an accredited nursing program with a Bachelor of Science in Nursing degree (BSN)
2. 3.0 undergraduate cumulative GPA
3. Successful completion of undergraduate courses in statistics and research, basic knowledge of computers, computer spreadsheets and at least one software program
4. Three (3) letters of recommendation
5. Total score of 286 on two of the three sections on The Graduate Record Exam (GRE) or 400 on The Miller Analogies Test (MAT)*
6. Graduate Nursing Admissions Essay (instructions enclosed)

**This may be waived for WJU BSN graduates if all other requirements are met.*

Transfer Credit

Up to six graduate credits (two courses) in nursing may be eligible for transfer credit. Such credit is only available for graduate level nursing courses and only when the quality and comparability of the other work meets the approval of the Graduate Admissions Committee. Transfer credit will not be awarded for the courses with grades below a "B."

MSN 540 Capstone Seminar
MSN 541 Practicum

Clinical Core Courses

MSN 529 Advanced Comprehensive Assessment
MSN 530 Advanced Pathophysiology
MSN 532 Advanced Pharmacology

Nursing Graduate Post-Master's Certificates

Post-Master's certificates provide nurses with MSN degrees the opportunity to acquire specialized skills that may not have been offered in their master's degree programs. The school of Nursing at Wheeling Jesuit University addresses this need by offering three Post-Master's certificates: Family Nurse Practitioner, Nursing Education, and Nursing Administration.
